More

Run SQL query/queries on database v2v:

```
1 create table registration(
2 Id int Primary key AUTO_INCREMENT,
3 Name varchar(50) Not Null,
4 Address varchar(500),
5 Phone varchar(20) Not Null,
6 Email varchar(50),
7 Course varchar(50));
```

The image shows a code editor with three tabs: `connect.php`, `connectonline.php`, and `insert.php`. The `insert.php` tab is active, displaying the following PHP code:

```
1 <?php
2 $server="localhost";
3 $user="root";
4 $password="";
5 $db="v2v";
6 $conn = mysqli_connect($server, $user, $password,$db);
7 if (!$conn) {
8     die("Connection failed: " . mysqli_connect_error());
9 }
10 $sql = "INSERT INTO Registration(name,address,phone,email,course)
11 VALUES ('Ajay', 'Thane', '+91-1234567890','ajaygimbhal@gmail.com','WEB')";
12 if (mysqli_query($conn, $sql)) {
13     echo "New record created successfully";
14 } else {
15     echo "Error: " . $sql . "<br>" . mysqli_error($conn);
16 }
17 mysqli_close($conn);
18 ?>
```

Below the code editor, a web browser window is open. The address bar shows `localhost:8081/interanship/28/insert.php`. The browser's bookmark bar includes links to Gmail, YouTube, Translate, News, Maps, and Home - Netflix. The main content area of the browser displays the message:

New record created successfully
